CONDITIONS OF SALE.

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing within 30 days of the date of the sale.

Coins and medals are sold at so much per **PIECE**, and no lot will be separated. The auctioneer will accept any bid up to 50c., then 5c up to \$2.50, when 10c. advance must be bid, up to \$10.00, when no advance under 50 cents will be accepted. If there are 5 pieces in the lot and you wish to pay \$5.00 for the entire lot, then bid \$1.00.

Auction sales are strictly for cash. Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

Be sure you bid on the lot you wish to buy.

All coins, etc., are genuine unless otherwise described.

A charge of 5% will be made to cover packing and shipping, but where the parcel is bulky an additional packing charge will be made. **No charge** made for bidding except for lots actually purchased. Remit by money order or New York draft.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, THOMAS L. ELDER.

Priced Catalogue of This Sale, \$2.50.

VERY RARE IMMUNE COLUMBIA CENT IN SILVER.

- 87.50 379 1785. Obv. Justice seated to right, holding scales. IMMUNE COLUMBIA; date beneath. Rx. Radiation, with eye, with 13 stars and points alternating. NOVA CONSTELLATIO. See Crosby Plate VII. No. 31. Also page 212, No. 5.

NOTE.—The well known English die-sinker Wyon did not make any Nova Constellatios, and the execution of this piece clearly indicates that the coin is of American origin, as no English coin of the period was as inferior as this one in workmanship. The workmanship is good when other American coins of the period are compared with it. Very good. **STRUCK IN SILVER.** Only three or four known in this metal. The one in the Mint in Gold is I believe the earliest gold coin struck in what is now the United States. A highly interesting piece and should be appreciated by collectors at this sale **Plate.**

REMARKABLE GROUP OF BABYLONIAN STONE CYLINDER SEALS.

These Seals date from B.C. 1500 to 2650, hence are from 3500 to 4500 years old. The ancient Babylonian Priests used them for sealing old temple and public records. business transactions, etc. In connection with the collecting of the ancient baked clay tablets, which bear the same dates of origin they form a most interesting series for collectors. It must be remembered that some of these tablets and seals date to hundreds of years before the time of Abraham of Bible history, placing them among the oldest human relics in this world.

RARE U. S. QUARTER EAGLES.

Note—The entire coinage of this denomination has been discontinued and all quarter eagles command a premium. So these quarter eagles are fair to be selling in the near future at the same premiums as the gold dollars and will be regarded in the same way as premium U. S. gold coins. The banks report no more of this denomination offered, while the government does not allow them to be passed out at the subtreasuries, and has ordered any on hand to be melted up. They are good coins for investment.
